WISE WANTS TO TAKE SIELCKEN'S BIG BET

"Government Will Break Up the Coffee Ring," Says U. S. District Attorney.

COURT ARGUMENT TO-DAY

If a Receiver Is Appointed the 950,000 Bags From Brazil Will Be Sold.

United States District Attorney Henry A. Wise said last night he wished he was in a position to take up the \$100,000 bet which Hermann Sielcken offered to make on Saturday in connection with the action just begun by the Government against the so-called coffee trust in which Mr. Sielcken is one of the eight defendants. In other words Attorney Wise believes that the Government is well within its rights in asking for a receiver for the \$50,000 bags of coffee which, as the com-missioner of the Brazilian State of Sao Paulo, Mr. Sieleken and the New York Dock Company are holding in the latter's South Brooklyn werehouses, although he admits that the case is as far as he knows

Hand's temporary injunction was served on him in the Waldorf was

"I will bet the Attorney-General of the United States \$100,000 that he will never he able to win this case in the Supreme Court or any other court to which it is finally brought. And I will bet him too that this Government will apologize to the Government of Erazil for his action before the matter is finished."

The injunction motion will be argued this morning at 10:30 o'clock. One of Attorney Wise's assistants will repre-

eent the Government.
"The object of the action," said Mr. Wise, in discussing the case, "is to reestablish a free flow of commerce between this country and Brazil, and the legal idea is based on a sound economic law, that of supply and demand. Our specific object is to release the 950,000 bags of coffee now being held by the defendants, and to prevent the process of controlling the market from being repeated."

Mr. Wise was not inclined to believe that the case in which some years ago the Government seized a shipment of tobacco at Norfolk offered a precedent for the present action, which in some ways is

"Our procedure here," he continued. does not aim at confiscation, as would be the case was the revenue question involved. We want merely to put this coffee back into the natural channels of commerce. How this will be accomplished depends entirely upon what the courts decide, as to how the sale of coffee should be conducted. In any case the result will be to break up the coffee ring.

The Rev. Robert G. Leetch, for eight advanced stages.

"All I feel justified in claiming," says Church, in the Crestwood section of Far the physician, "is that I am the first to

tion at yesterday morning's service. The announcement from the pulpit was not the first news which Dr. Leetch's congregation had had of his intention to quit them, for several weeks ago he announced that he had received a call to the East Evans Congregational Church at Derby, N. Y., and that he thought for the good of the pastorate at Far Rockaway he ought to accept the call to Derby. At that time the elders and the board of trustees of the congregation told Dr. decision would be accept when the pulpit was leads the mortality statistics of the same in the following words:

"The expressions of regret at my decision to quit you," said Dr. Leetch to the members of his congregation, "show plainly that your feelings toward me have been misrepresented."

Ezra Smith, one of those chosen vesterday to lay before the Nassau Presbytery the decision of the church in regard to Mr. Leetch's resignation, said last right that he would say nothing about the matter. "Least said's soonest mended," he added.

Hucken of the City Council instructed Chief Emil Ruch to put a lock on the door. The firemen promptly disposed of everything in the house, and as they owned the horses it would be well night impossible to get a team of horses in the vicinity to take out the combination hose and ladder truck in case of fire.

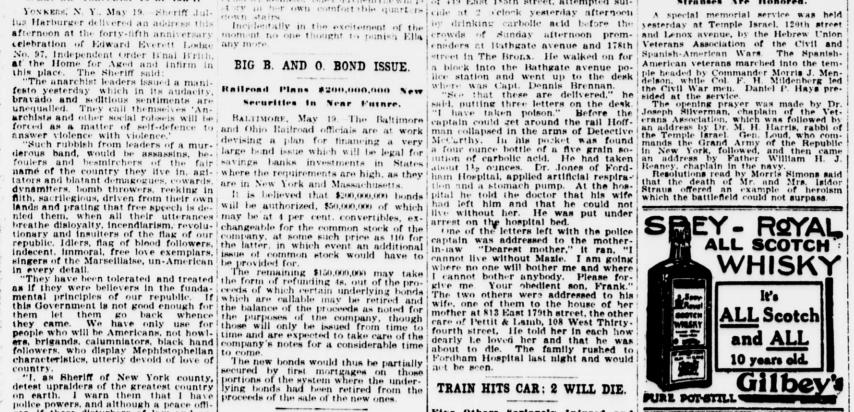

Highwood Hose Company and Central Company No. 1 will meet to morrow night to disband, and this will leave in the field the prid fire company of eight men, who were employed to handle the high speed auto pumping engine. It is this paid branch of the department that has caused all the trouble, and among themselves the volunteers have said that they will not work with the paid firenien.

A few days ago the fire committee of the City Council went to the Nordhoff section, a pile from Englewood's city centre, and had a fire alarm turned in. The supposed blaze was only a block from the Nordhoff fire house, but the auto engine with its paid men reached the scene two minutes ahead of the volunteers after travelling a mile and quarter. This didn't intensify the love of the volunteers for the paid men.

The volunteers insist that a recent ordinance dishanded them and they have applied for exempt certificates. This virtually means a dishonorable discharge for the men who have disbanded.
